**Surname Suggestion List** Contact Matt Combs the developer at [MattCombs@triad.rr.com](mailto:MattCombs@triad.rr.com)

Surname Suggestion List is a free computer program for the genealogy community. This program, which runs under the Windows operating system, is intended to assist you in searching the web for information on your surnames and their variants.

After you enter in your surname, you click on the Search button, and it will create 3 lists of similar sounding surnames. The lists are based on how good a sound match the other surnames are to the one you entered. The lists are titled Excellent, Close, and Longshot. Requested donation is \$5.00.
